

Conflict Minerals

Dear Customers of the company Maximator GmbH,

In accordance with section 1502 of the Dodd-Frank Act, companies noted on the stock exchanges in the USA are obliged to provide information about their use of so-called conflict minerals. These include tantalum, tin, tungsten and gold from the Democratic Republic of the Congo and their neighbouring countries (Angola, Burundi, Central African Republic, Republic of the Congo, Rwanda, South Sudan, Tanzania, Uganda and Zambia) - the so-called DRC Region.

Maximator GmbH is aware of its social responsibility in terms of the environment, safety, health and observance of human rights. Our business conduct reflects our commitment to peaceful and sustainable use of our worldwide resources. We do not directly import conflict minerals, nor do we have any information that minerals that originate from this conflict region are used in our products.

Please understand therefore that, due to the large amount of enquiries, we cannot complete any special forms. We hope that this declaration contains the information you require.

Nordhausen, December 2015
